Plant Scouts

Wholesale Line Sheet

Holiday 2026 · Spring 2027

Plant Scouts makes botanical gifts for people who feel most at home outdoors. Every design starts as an original illustration drawn in-house in Southern California: enamel pins, embroidered hats, stickers, totes, suncatchers, birth flower jewelry and apparel inspired by wildflowers, houseplants, mushrooms and the native plants people meet on the trail.

Since 2020 our pieces have found homes in more than 1,100 shops, from plant shops and nurseries to botanical garden stores, park and nature center shops, and gift boutiques. Garden and park stores are some of our longest partners: our designs give visitors a small, affordable way to take the place home with them.
